ENVIROSUN[®] 170L Thermosiphon Solar Hot Water Heater

TS Thermosiphon systems

— simple, efficient and reliable

Our TS Thermosiphon Systems offer seamless integration and roof-mounted design for maximum solar efficiency. Advanced safety features and a 7-year warranty on tanks and collectors ensure optimal performance.

Engineered for Australian conditions

Engineered with European 444 grade ferritic stainless steel cylinders, backed by a 7-year warranty for durability in Australian conditions.

Harnessing the power of nature

Harnessing thermosiphon flow driven by the density difference between warm and cool water, our solar water heaters require no external power.

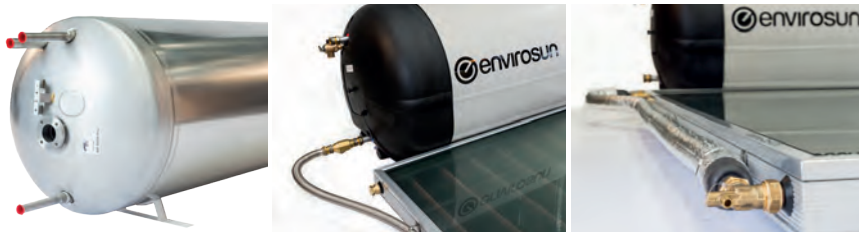

Embracing the greenhouse effect

Greenhouse effect utilisation in solar collectors enhances efficiency, reflecting heat back into the collector.

Unmatched simplicity and reliability

TS systems are designed for simplicity and reliability, eliminate the need for powered pumps, ensuring consistent performance and energy savings.

With over 25 years of experience, EnviroSun specialises in high-quality solar hot water systems, demonstrating true dedication to the environment and customers.

TS

THERMOSIPHON SYSTEM

ELECTRIC BOOSTED	TS170/40Se
CER code	TS170/20/O/E24/S2/E20HS
Storage Capacity	167L
Mass Empty	76kg
Mass Full	251kg
Footprint	1,400 x 2,600mm
Boost capacity	140L

TANK	
Model	TS170/O/E24/S2
Mass Empty	38kg
Mass Full	206kg
Footprint	650 x 1,264mm
Height	600mm

COLLECTORS	
Model	E20HS (E20HA optional)
Quantity	1
Mass Empty (each)	27.5kg
Mass Full (each)	29.2kg
Footprint (each)	1,060 x 2,000mm
Height	70mm

ELECTRIC BOOSTER	
Rating	2.4kW

Extended product warranty

Years after installation date	< 1	1-5	5-7

Electrical, Valves & Acc.	✓	×	×

- ✓ Tank and collector are roof-mounted as a single integrated design.
- ✓ Maximum solar efficiency with no power input.
- ✓ Technologically-advanced safety and control systems.
- ✓ Superior durability, reliability and cost-effectiveness.
- ✓ 7-year tank and collector warranty.
